

Manifest and Volume Database Information

This memorandum provides information about the hazardous waste manifests that were used to track wastes received by the Omega Chemical Site, how the U.S. EPA used the manifest information, and how to read the manifests and the U.S. EPA's summary of information from the manifests (the "Manifest Summary") for your company or organization. Your company or organization's Manifest Summary is enclosed, together with copies of the waste manifests attributed to your company or organization.

THE MANIFESTS

The enclosed manifests are records of wastes generated by your company or organization. The U.S. EPA obtained the manifests for wastes disposed of at the Omega Chemical Site from the State of California Department of Toxic Substances Control (DTSC). A sample of a commonly used manifest is attached. Your company or organization's manifests may differ in appearance from the sample, as varying forms of manifests were used during the time that the Omega Chemical Site was in operation, but the manifests contain essentially the same information as the samples. It may be helpful for you to look at your company or organization's manifests as you read this memorandum.

THE U.S. EPA DATABASE

DTSC entered relevant information from these manifests into a computer database. Following data entry into the database, the manifests were microfilmed for permanent storage and are maintained by DTSC. DTSC provided the U.S. EPA with an extract of DTSC's computer database which the U.S. EPA used in calculating the total volume of manifested waste disposed of at the Omega Chemical Site, as well as the volume of waste disposed of by each individual generator.

The U.S. EPA converted all waste weights/volumes to tons (conversion factors provided below). The U.S. EPA then generated a subtotal of all record volumes for each party identified with the Omega Site.

In addition, the U.S. EPA reviewed and modified DTSC's database entries to improve the accuracy of the U.S. EPA database. For example, the U.S. EPA pulled an example manifest for each EPA Generator ID number identified as having delivered waste to the Omega Site. The information in the database was compared against the actual manifest and this data was reviewed for completeness of Generator Address, EPA Generator ID number and quantities. When necessary, this information was revised to correspond to the information contained on the manifest itself. However, the U.S. EPA encourages you to carefully review each manifest allocated to your company or organization and confirm that the total tons allocated to each manifest is correct.

The table below describes the type of manifest information that was entered into the U.S. EPA database.

MANIFEST INFORMATION ENTERED IN U.S. EPA DATABASE	
Date	The shipment date of the manifest (taken from the facility section). See the information marked "A" on the sample manifests.
Manifest number	The original number of the manifest. See the information marked "B" on the sample manifests.
Generator Name	The entity that generated the waste. See the information marked "C" on the sample manifests.
Quantity	The weight or volume of the waste (must be read with the "Units" information to determine the actual quantity). See the information marked "D" on the sample manifests.
Units	The units of weight or volume used (e.g., pounds, tons, gallons, barrels) to measure the quantity. See the information marked "E" on the sample manifests.
Disposal site	The ultimate disposal site for the waste. See the information marked "F" on the sample manifests.

All calculated volumes in your company or organization's Summary Manifest are in tons. If the original units on the manifest were not in tons, the following conversion factors were applied by the U.S. EPA:

GAL	=	8.34 lbs
BBL	=	55 * 8.34 lbs (= 458.70 lbs)
DRM	=	55 * 8.34 lbs (= 458.70 lbs)
TON	=	2000 lbs
YDS	=	202.018 * 8.34 lbs (= 1,684.83 lbs)

To determine the amount of waste represented by the manifest, you must read both the quantity information and the unit information. The unit information tells you if the number was a measurement of gallons, barrels, pounds, tons, or other units of measurement. If units other than tons were used on the original manifest (e.g., barrels, drums, pounds, or yards), the U.S. EPA used the above conversion factors such that all weights/volumes were reported in tons.

THE MANIFEST SUMMARY

The Manifest Summary for your company or organization is a report generated from the U.S. EPA database, compiling information extracted from the manifests. The primary information categories, from the database, that form the Manifest Summary are explained in the Manifest Summary Key table below.

MANIFEST SUMMARY KEY	
generator_name	The entity that generated the waste.
lc_name	The liable company (lc) name.
lc_calc_volume	The liable company's total calculated volume of waste (in tons).
manifest_number	The original number of the manifest.
manifest_quantity ton	The volume (in tons) per manifest.

The Manifest Summary identifies the total volume (in tons) the U.S. EPA has assessed to your company or organization. The Manifest Summary also lists each manifest from your company or organization with its corresponding waste volumes.

The "generator" name is the entity or original party that generated the waste. The "lc name" or liable company name is the entity currently responsible for the waste generated by the original party.

The "manifest quantity ton" is your company or organization's volume (in tons) that corresponds to each "manifest number". The "lc calc volume" is your company or organization's total calculated volume of waste (in tons), based on the sum of the "manifest quantity ton" column.

Omega Site De Minimis Settlement Information

This memorandum explains the *de minimis* settlement offer the U.S. EPA is now extending to your company or organization. The terms of the Administrative Order on Consent will supersede any conflicting information in any other document.

The memorandum addresses the following topics:

TOPIC	PAGE
The Responsibility of De Minimis Waste Generators for Omega Site Response Costs	2
The Cost to Join this Settlement	4
Overview of the Settlement Discount	5
Financial Hardship Review	5
Volume Review	6
The De Minimis Settlement Process	6
The Benefits of Joining the Settlement	7

The Responsibility of De Minimis Waste Generators for Omega Site Response Costs

This settlement offer is being made available to a class of potentially responsible parties who disposed of a comparatively small amount of waste¹ at the Omega Site, and whose waste was not more toxic or hazardous than other site wastes. This class of potentially responsible parties is referred to as “*de minimis* waste generators” or “*de minimis* parties.” The U.S. EPA views your company or organization as a waste generator because it, or one of its predecessors, is identified on one or more waste manifests as the generator of wastes disposed of at the Omega Site. Copies of the manifests identifying your company or organization are enclosed. The U.S. EPA believes that your company or organization qualifies for the special settlement opportunities open only to *de minimis* parties, based on (i) the quantity of waste it disposed of at the Omega Site, and (ii) the probability that it did not dispose of any hazardous substances which are more toxic or hazardous than those already identified at the Omega Site. The Superfund liability of waste generators generally, and the special *de minimis* settlement opportunities allowed by the Superfund law, are discussed below.

1. The Liability of Waste Generators under Superfund

Under the Superfund law, formally known as the Comprehensive Environmental Response, Compensation, and Liability Act, or “CERCLA,” parties that arranged for the treatment, disposal, or transportation of hazardous substances² to a Superfund site (referred to as “generators”) are obligated to finance or undertake certain actions that the U.S. EPA determines are necessary to protect public health, public welfare, or the environment. Generators are also responsible for government costs incurred in response to any release or threatened release of a hazardous substance at a Superfund site. These costs are collectively referred to as “response costs.” Government response costs can include expenditures for investigation, planning, site cleanup, and enforcement. Under the Superfund law, generators are liable for response costs at the site where their wastes were disposed even if their transporter selected the disposal site.

The threats to human health and the environment posed by the Omega Site are the result of the disposal of a large quantity and variety of hazardous substances by thousands of individual waste generators. It is impossible to distinguish between the harms caused by individual waste generators at the Omega Site; as a result, in legal terms, this harm is considered an “indivisible injury.” When multiple parties cause an indivisible injury, each individual party can be held liable for all of the costs necessary to repair the injury (in legal terms, each party is “jointly and

¹ At the Omega Site, *de minimis* parties contributed less than 10 tons but more than 3 tons of waste.

² The CERCLA statute defines the term “hazardous substance.” Hazardous substances include a wide variety of materials, some of which are very common. For example, bleach and many other cleaning agents are hazardous substances. Certain solvents, lubricating agents, metals, pesticides, and other chemicals can also be hazardous substances, as can highly acidic or low pH materials and materials that are very corrosive or explosive. Pure petroleum products are generally excluded from the definition of hazardous substances, but petroleum substances (such as waste oils) contaminated with hazardous substances are considered hazardous substances. Many different hazardous substances were disposed of at the Omega Site.

severally liable” for the injury). Under the Superfund law, each party that sent hazardous substances to the Omega Site is jointly and severally liable for all cleanup actions at the Site, as well as all other response costs incurred or to be incurred by the United States and the State of California.

The Superfund law authorizes the U.S. EPA to require potentially responsible parties to perform remedial work at Superfund sites. It also entitles the United States, and the State of California, to sue potentially responsible parties to recover the costs they have expended at the Site. In addition to these government enforcement authorities, the Superfund law allows potentially responsible parties which have contributed work or funds to help clean up a Superfund site to bring private lawsuits against other potentially responsible parties seeking reimbursement, or a contribution, of money spent to cleanup the site.

2. Special De Minimis Settlement Opportunities

The Superfund law provides for special treatment of *de minimis* parties who choose to settle their liability with the U.S. EPA. Under Superfund, *de minimis* parties may resolve all of their liability at the Site in one settlement with the U.S. EPA. In exchange for a cash payment, EPA will grant the settling party Contribution Protection and we will also give that party a Covenant Not to Sue. EPA’s grant of Contribution Protection means that EPA will protect the *de minimis* settlor from lawsuits brought by other potentially responsible parties seeking reimbursement of costs spent to clean up the Site. Further, EPA’s Covenant Not to Sue means that we will not pursue you in the future for reimbursement of costs or to perform work at the Site. In other words, a settling *de minimis* party may “cash out” at the Site and it will not have to address its potential liability at the Site again. On the other hand, larger waste generators can not settle all of their potential liability or cash out with the U.S. EPA at the Site this early in the cleanup process. These larger parties will perform work and negotiate additional settlements with the U.S. EPA in the future until the Site is cleaned up. Thus, EPA provides broader protection and more finality to *de minimis* settlers in a *de minimis* settlement than it provides to larger parties.

Settlements with *de minimis* parties can take the form of simplified, voluntary administrative settlements called “Administrative Orders on Consent.” An Administrative Order on Consent is basically an agreement or contract between EPA and the settling party in which EPA resolves the settling party’s liability in exchange for a cash payment. Your company or organization can participate in a *de minimis* settlement by paying its fair share toward the costs of cleaning up the Omega Site. At this time, the U.S. EPA is providing you an opportunity to resolve your company or organization’s liability for the Omega Site under Superfund within a proposed settlement or Administrative Order on Consent.

Qualifying for the De Minimis Settlement

This settlement offer is only available to parties who qualify as *de minimis* waste generators. The Superfund statute limits *de minimis* waste generator status to parties that contributed comparatively small quantities of wastes which are of comparatively minimal toxic or hazardous effect. In order to ensure that your company or organization meets the requirements for joining the *de minimis* settlement, your company or organization must make certain

certifications as part of the Administrative Order on Consent. The signature of your company or organization's authorized representative constitutes its certification that it contributed less than the *de minimis* threshold of wastes of 10 tons; that it did not contribute any hazardous substances more toxic than those the U.S. EPA has already identified as having been disposed of at the Omega Site;³ and that it has cooperated with the U.S. EPA's efforts. The proposed Administrative Order on Consent will contain the exact terms of the certification. This document will be sent to you in the near future.

Your company or organization may also submit a volume review application if it believes that there is an error in its total volume or is not liable for the allocated waste. Finally, if your company or organization cannot pay the full settlement amount required without severe financial hardship, it may submit a financial review application to the U.S. EPA and seek reduction of its payment amount in order to avoid this severe hardship. These options are discussed in detail later in this memorandum.

Settlement payments are due within thirty (30) days after the U.S. EPA notifies your company or organization that the effective date of the Administrative Order on Consent has occurred. The settlement process after EPA receives signature pages is discussed in detail later in this memorandum.

The Cost to Join this Settlement

The enclosure entitled "Settlement Cost Summary" shows the amount your company or organization is required to pay to join this settlement. The cost to your company or organization to join in this settlement reflects its share of the total cost of cleaning up the Omega Site. Response costs for completed site activities exceed \$12.3 million and projected future response costs are expected to exceed \$89.2 million, resulting in a total of over \$101.5 million for overall response costs. The detailed estimate of future cleanup costs was made available to the public in April 2004, and is available upon request at 1-888-635-1524.

Your company or organization's share of the total response costs is based on the amount of waste it contributed to the Omega Site, as a portion of the total volume of manifested waste that was disposed of at the site (18,426 tons). Copies of the waste manifests the U.S. EPA attributes to your company or organization are enclosed, together with a summary (entitled "Manifest Summary") listing the manifests and the total volume of waste for your company or organization. The memorandum entitled "Manifest & Volume Database Information" explains how the U.S. EPA calculated the total volume of manifested waste attributed to your company or organization, as well as the total volume of manifested waste disposed of at the Site.

³ If your company or organization sent hazardous substances to the Omega Site which are more toxic than those found at the Site, it should use the enclosed application entitled "Application for parties Who Disposed of More Toxic Contaminants." The list of hazardous wastes found at the Omega Site is contained in Attachment A to that application. The U.S. EPA will determine, after reviewing the application, if your company or organization still qualifies as a *de minimis* party.

The cost per ton to join this settlement is the total of two components: a base payment and a premium to account for uncertainties in projected future response costs. The base payment was determined by dividing the total estimated Omega Site-wide response cost by 15,096 tons⁴. The premium applied to projected future costs was set at 100% for the Option A settlement and 50% for the Option B settlement. These premium amounts are determined following the U.S. EPA's national policy for *de minimis* settlements and these premium amounts are consistent with other Superfund Sites across the country. Combining the base payment and the premium payment, the cost per ton to join this settlement is \$12,632 per ton of waste for the Option A settlement and \$9,678 per ton of waste for the Option B settlement.

The Settlement Cost Summary shows the amount your company or organization is required to pay to join this settlement, calculated by multiplying your company or organization's total waste volume by the cost per ton.

Overview of the Settlement Discount

The U.S. EPA is offering your company or organization the opportunity to obtain a five percent (5%) settlement discount. If your company or organization is prepared to settle its liability on the terms the U.S. EPA is now offering to *de minimis* parties at the Omega Site, it may submit its signature page to the U.S. EPA by the date stated in the Notice and Offer Letter and receive the 5% discount. Thereafter, the company or organization will have an opportunity to withdraw from the settlement, for any reason, once it receives the proposed Administrative Order on Consent. In other words, your company or organization can take the benefit of the 5% discount without making a final commitment to the settlement.

The cost to your company or organization to settle with the five percent (5%) discount is provided on the enclosed Settlement Cost Summary. Your company or organization will automatically receive the discount if the U.S. EPA receives the completed settlement signature page postmarked not later than the deadline specified in the Notice & Offer letter.

Financial Hardship Review

Parties who wish to join this settlement but who cannot make a single lump sum settlement payment without jeopardizing their ability to conduct their business or maintain their basic living expenses may ask the U.S. EPA to review their financial condition to determine if they qualify for a reduced settlement amount. Applicants must follow all of the instructions, use the forms provided, and supply all of the required detailed financial information (including tax returns) specified in the enclosed memorandum entitled "Instructions & Application for Parties with Limited Financial Abilities," or the U.S. EPA will not be able to conduct the requested review.

⁴ The U.S. EPA estimates that 18% or 3,330 tons of the total manifested waste disposed at the Omega Site (18,426) is attributable to parties who are now defunct/insolvent and/or attributable to parties whose individual waste contributions are below 3 tons. (Total manifested waste volume of 18,426 tons minus 3,330 tons equals 15,096 tons.)

The U.S. EPA will review the information provided, and may require additional financial information before deciding if parties qualify for reduced payments. Only those parties who submit complete and timely applications, and who are subsequently informed by the U.S. EPA that they qualify, may participate in a *de minimis* settlement for the Omega Site with a reduced payment specified by the U.S. EPA in light of their financial condition. Parties who submit financial review applications but do not qualify for reduced payments will be given the opportunity to participate in a *de minimis* settlement by making the full settlement payment. In either event, parties who submit financial hardship review applications will have the opportunity to withdraw their signature pages within two weeks after they receive notification of the U.S. EPA's financial hardship review decision. Further information about the financial hardship review process is provided in the enclosed memorandum entitled "Instructions & Application for Parties with Limited Financial Abilities."

Please note, parties that request a financial hardship review and are approved for a financial hardship settlement will not be eligible for the 5% discount. However, if you submit your request for a financial hardship review early, the U.S. EPA will be able to process your request faster.

Volume Review

Parties who agree in principle to join this settlement but who believe that there is an error in the total volume amount assessed to them or that they are not liable for the allocated waste may apply to the U.S. EPA for a volume review. Applicants must follow all of the instructions and use the forms provided in the enclosed memorandum entitled "Instructions & Application for Parties Seeking Volume Review," or the U.S. EPA will not be able to conduct the requested review.

The U.S. EPA will review the information provided and may require additional supporting information before deciding if a volume assessment was erroneous. Parties which are subsequently informed by the U.S. EPA that their volume assessment was incorrect will be allowed to join the *de minimis* settlement by making a revised settlement payment specified by the U.S. EPA. Parties which submit volume review applications but are not granted reduced volumes will be allowed to participate in a settlement by making the full settlement payment. For these parties which are not granted a reduced volume, they will have the opportunity to withdraw their signature pages within two weeks after they receive notification of the U.S. EPA's volume review decision. Further information about the volume review process is provided in the enclosed memorandum entitled "Instructions & Application for Parties Seeking Volume Review."

The De Minimis Settlement Process

Once the U.S. EPA receives all of the signature pages, it will proceed to finalize the settlement.

In the U.S. EPA's first step of the settlement process, we will mail you a copy of the proposed Administrative Order on Consent. All settling parties will be given an opportunity to withdraw from the settlement, for any reason, within 30 days after receiving the proposed

Administrative Order on Consent. In the second step, the U.S. EPA, the Department of Interior and the State of California will sign the agreement. The third step is a public notice and comment period. During this thirty-day comment period, the U.S. EPA will accept comments on the terms of the Administrative Order on Consent from persons who are not parties to the settlement. The U.S. EPA will then respond to the submitted comments, if any. In the fourth step, the U.S. Attorney General will approve the settlement and the Administrative Order on Consent will be final.

Unless the U.S. EPA modifies or withdraws its consent of the settlement due to issues raised by public comments, or the U.S. EPA fails to obtain the approval of the settlement from the U.S. Attorney General, the U.S. EPA will send a letter to all of the settling parties informing them that (i) the public comment period has closed, (ii) the comments the U.S. EPA received, if any, do not require modification or withdrawal of the settlement, and (iii) the U.S. Attorney General has approved the settlement. This letter will also include instructions for making the payments required by the settlement, which will be due thirty days from the receipt of the letter. The date that the U.S. EPA issues this letter will also be the effective date of the Administrative Order on Consent. Once the Administrative Order on Consent is effective, and EPA has received the settlement payments, the participating companies and organizations will receive the releases from liability and the protection from contribution lawsuits described in this letter.

The Benefits of Joining the Settlement

Your company or organization will receive several benefits if it decides to settle with the U.S. EPA. Specifically, in this settlement the U.S. EPA will promise not to sue you in the future for the Omega Site costs or work. For Option A settlers, the Department of Interior and the State of California will also promise not to sue you in the future for natural resource damages and the State of California's costs spent to cleanup the Site. And if your company or organization is sued in the future by other parties liable at the Omega Site for the reimbursement of cleanup costs, the U.S. EPA will promise to protect your company or organization in that litigation. Moreover, if you participate in the settlement, you will receive finality in regard to the Omega Site. This settlement is a one time payment and release of any obligation for which you might otherwise have to pay additional costs or perform work at the Omega Site.

The U.S. EPA wants the settlement process to be fair to all *de minimis* parties and that each party is treated equally. In this settlement process, each company or organization will have the opportunity to request a reduction in the settlement amount based upon your company or organization's financial ability. Each will also be able to request the U.S. EPA review your allocated volume if you believe the allocated volume is in error.

Please be aware that if your company or organization chooses not to settle, it is unlikely that it will be given another opportunity with equivalent benefits. Moreover EPA will not offer another *de minimis* settlement at the Site for several years.

In short, the U.S. EPA believes that your company or organization should consider taking advantage of this settlement opportunity. If your company or organization would like to contact other potentially responsible parties regarding the Site before deciding to join this settlement, we have provided their contact information below.

Contacting the Larger Waste Generators. Your company or organization may wish to contact the Omega Chemical Site PRP Organized Group or "OPOG", the workgroup formed by the larger waste contributors (referred to as "major" waste generators), for their views on the Omega Site and its progress. If you have questions regarding work performed by OPOG at the Site, please contact Chuck McLaughlin, of de maximis, Inc., at (909) 222-0387. For any questions related to the potential contribution litigation, contact Keith F. Millhouse, Esq. at (805) 230-2280, or Larry G. Gutteridge, Esq., at (213) 628-7131.

Contacting the De Minimis Group. Your company or organization may also wish to contact a group of *de minimis* parties represented by common counsel. If so, contact Albert Cohen, the attorney representing the De Minimis Group, at (310) 282-2228, or by email at acohen@loeb.com.

Optional Applications

Instructions and applications for parties seeking financial review or volume review are attached. The Application for Parties who Disposed of More Toxic Contaminants is also attached for parties which disposed of hazardous substances more toxic than those listed in the application. Please review the Omega Site De Minimis Settlement Information memorandum and all of the relevant instructions before completing any of the attached applications. The U.S. EPA will not be able to process incomplete or improperly completed applications. If your company or organization chooses to submit any of these applications, your company or organization must ensure that its application(s) are sent to the U.S. EPA at the address noted below. The U.S. EPA will review your application(s) even if no signature page is submitted, but if your company or organization wishes to join the expedited settlement and receive the five percent discount, then all applications must be submitted accompanied by an executed settlement signature page and postmarked no later than the deadline specified in the Notice & Offer Letter for the expedited settlement. Note: Signature pages can be withdrawn within 14 days after the U.S. EPA has notified you of the results of its review of your application. Please see the instructions accompanying each application and the Omega Site De Minimis Settlement Information memorandum for more details.

Instructions & Application for Parties with Limited Financial Abilities

De minimis parties that agree to settle in principle, but face such financial hardship that they could not pay the full settlement cost without jeopardizing their ability to conduct business or, for individuals, to maintain their basic living expenses, may request a financial review by submitting the appropriate supporting documentation and completed form(s) along with their signature page for the settlement. The executed signature page, completed forms, and all required supporting documentation must be submitted to the U.S. EPA at the address noted below and postmarked no later than the deadline specified in the Notice & Offer Letter for the expedited settlement. If the U.S. EPA determines that your company or organization's financial condition does not warrant a settlement reduction, your company or organization will have the opportunity to participate in a *de minimis* settlement by making the full settlement payment, or can withdraw its signature page within two weeks after it receives notification of the U.S. EPA's decision.

Please read all of the instructions before completing the appropriate forms. **Incomplete applications will not be accepted for review. The U.S. EPA requires that all supporting documentation be submitted with this application even if previously submitted. The U.S. EPA will not conduct a financial review unless this application is submitted.** Please note that it will take the U.S. EPA some time to review your application, and that the U.S. EPA may request additional information to complete the review. Please also note that parties who submit financial review applications and are approved for a reduced settlement amount will not be eligible for the five percent discount.

Business Confidentiality Claims

You may assert a business confidentiality claim covering all or part of the information requested herein, as provided in 40 Code of Federal Regulations ("C.F.R.") Section 2.203(b). To make a confidentiality claim, please follow the instructions provided in Attachment A to this document.

Linda Ketellapper, Case Developer
Mail Code SFD-7-B
U.S. Environmental Protection Agency

San Francisco, CA 94105

INSTRUCTIONS

1. If your company or organization is a corporation, complete and return only the Financial Statement for Businesses (Attachment B). In all other cases, complete and return both the Financial Statement for Businesses and the Individual Ability to Pay Claim Financial Data Request Form (Attachment C). If your company or organization is a partnership, you must complete and return the Financial Statement for Businesses and each general partner must also submit a completed Individual Ability to Pay Claim Financial Data Request Form.
2. All blanks on the form(s) must be filled in with responsive information or with "Not Applicable," if the question does not apply to you or your situation.
3. All property valuations listed on the form(s) must be based on current market value; e.g., the mutually agreed sales price between two parties (a willing buyer and seller);
4. You or an official duly authorized by your company or organization must sign and date the form(s). In addition, you must provide the name, title, and telephone number of a person we may contact to resolve questions or ambiguities, or from whom we may seek additional verification and information; and
5. You must provide an explanation for any changes or discrepancies between tax returns and financial statements, or significant inconsistencies between successive years of tax returns. Discrepancies or inconsistencies which are not satisfactorily explained will require additional substantiation or verification before a claim of inability to pay will receive consideration.

Required Documentation

You must provide the following documentation:

1. Copies of federal income tax returns for the five most recent years, with all schedules, notes and attachments;
2. Copies of audited financial statements for the five most recent years, including auditor's opinion, balance sheet, income statement, statement of cash flows and supporting notes and schedules. If audited statements are not available, please submit unaudited financial statements, including balance sheet, income statement, statement of cash flows and supporting notes and schedules;
3. Bank statements for the most recent twelve-month period for any checking, savings, or other demand deposit accounts owned or controlled by you or your company or organization or for which you or an authorized officer of your company or organization has signatory authority;
4. Fill in the address and sign the enclosed IRS Form 8821 (Attachment D);

5. Identify all property, casualty and/or liability insurance policies, and any other insurance contracts, held by your company or organization for the period beginning with the first known instance in which your company or organization arranged for treatment or disposal of hazardous substances at the Omega Chemical Superfund Site. If your company or organization acquired another company, assumed assets and liabilities of another company, or merged with another company which arranged for treatment or disposal of hazardous substances at the Omega Chemical Superfund Site, please identify all insurance policies and any other insurance contracts held by such other company for the period beginning with the first known instance in which the acquired, assumed or merged company arranged for treatment or disposal of hazardous substances at the Omega Chemical Superfund Site to the present. In identifying such policies, state:
 - a. The name and address of each insurer and of the insured;
 - b. The type of policy and policy numbers;
 - c. The effective dates for each policy; and,
 - d. The per occurrence policy limits of each policy;
6. Provide a statement of the maximum amount that you believe you or your company are financially able to pay to resolve your liability; and
7. Provide any additional information which may be relevant in evaluating your or your company's ability to pay.

If you have questions regarding these instructions or your limited financial ability please direct those questions to:

Business Confidentiality Claims

Confidential Information. The information requested herein must be provided even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to Sections 104(e)(7)(E) and (F) of CERCLA, 42 U.S.C. §§9604(e)(7)(E) and (F), and Section 3007(b) of RCRA, 42 U.S.C. §6927(b), and 40 C.F. R. §2.203(b). If you make a claim of confidentiality for any of the information you submit to EPA, you must prove that claim. For each document or response you claim confidential, you must separately address the following points:

1. clearly identify the portions of the information alleged to be entitled to confidential treatment;
2. the period of time for which confidential treatment is desired (e.g., until a certain date, until the occurrence of a specific event, or permanently);
3. measures taken by you to guard against the undesired disclosure of the information to others;
4. the extent to which the information has been disclosed to others, and the precautions taken in connection therewith;
5. pertinent confidentiality determinations, if any, by EPA or other federal agencies, and a copy of any such determinations or reference to them, if available; and
6. whether you assert that disclosure of the information would likely result in substantial harmful effects on your business' competitive position, and if so, what those harmful effects would be, why they should be viewed as substantial, and an explanation of the causal relationship between disclosure and such harmful effects.

To make a confidentiality claim, please stamp, or type, "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise nonconfidential documents should be clearly identified. You should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit your response so that all nonconfidential information, including any redacted versions of documents are in one envelope and all materials for which you desire confidential treatment are in another envelope.

All confidentiality claims are subject to EPA verification. It is important that you satisfactorily show that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, and that it is not and has not been obtainable by legitimate means without your consent. Information covered by such claim will be disclosed by EPA only to the extent permitted by CERCLA Section 104(e). If no such claim accompanies the information when it is received by EPA, then it may be made available to the public by EPA without further notice to you.

Disclosure to EPA's Authorized Representatives. Information which you submit in response to this information request may be disclosed by EPA to authorized representatives of the United States, pursuant to 40.C.F.R. 2.310(h), even if you assert that all or part of it is confidential business information. The authorized representatives of EPA to which EPA may disclose information contained in your response are as follows:

1. Arctic Slope Regional Corp.
EPA Contract Number 68-R9-0101
2. Department of Toxic Substances Control/California
Environmental Protection Agency
3. Science Applications International Corporation
EPA Contract Number GS-10F-0076J

Any subsequent additions or changes in EPA contractors who may have access to your response to this request will be published in the Federal Register.

This information may be made available to these authorized representatives of EPA for any of the following reasons: to assist with document handling, inventory, and indexing; or to assist with document review and analysis for verification of completeness; or to provide expert technical review of the contents of the response. Pursuant to 40 C.F.R. §2.310(h), you may submit comments on EPA's disclosure of any confidential information contained in your response by EPA to its authorized representatives along with the response itself, within the specified period in which the response is due.

INDIVIDUAL ABILITY TO PAY CLAIM
Financial Data Request Form

This form requests information regarding your financial status. The data will be used to evaluate your ability to pay for environmental clean-up or penalties. If there is not enough space for your answers, please use additional sheets of paper. Note that we may request further documentation of any of your responses. We welcome any other information you wish to provide supporting your case, particularly, if you feel your situation is not adequately described through the information requested here. **Failure to answer all the questions clearly and completely may result in denial of your claim of inability to pay.**

Certification

Under penalties of perjury, I declare that this statement of assets, liabilities, and other information is true, correct, and complete to the best of my knowledge and belief. I further understand that I will be subject to prosecution by the United States Government to the fullest extent possible under the law should I provide any information that is not true, correct, and complete to the best of my knowledge.

PART I. BACKGROUND INFORMATION

1. MEMBERS OF HOUSEHOLD (List the head of the household and all persons living with you)

Name	Age	Relationship to Head of Household	Currently Employed?
1.			
2.			
3.			
4.			
5.			
6.			
7.			

2. Employment (List all jobs held by persons in household)

Name	Employer	Length of Employment	Annual Salary
1.			
2.			
3.			
4.			
5.			
6.			
7.			

2a. If you have other employment, state the name and address of your employer, the position held by you, the date(s) you began this employment, period of payment and salary.

2b. Are you self-employed or do you own all or any part of a business as sole owner, partner, or stockholder?
☐ Yes
☐ No

2c. If your answer to question 2b is "yes," state the name and address of the business; the type of business conducted, the form of business organization, (e.g. corporation, partnership, sole proprietorship), the date you acquired your interest in the business, the nature of your ownership interest, the present value of your interest, and your office or position in the business.

2d. Were any articles of incorporation, partnership or certificates of doing business under a fictitious name filed with any governmental agency by the enterprise(s) identified in question 2c?
☐ Yes
☐ No

2e. If so, for each such filing, state: (i) the nature of the document filed, (ii) the location where filed; and (iii) the date of filing.

3. INCOME (List all income earned by persons in the household. If members of the household other than the applicant and spouse earn income, please itemize on a separate page.

Source	Gross (Pre-Tax)		Period of Payment (check one)			
	Applicant	Spouse	Weekly	Monthly	Quarterly	Yearly
Wages/Salaries						
Sales Commissions						
Investment Income(interest, dividends, capital gains, etc.)						
Net business Income						
Rental income						
Retirement income (Pension, Social Security, etc)						
Child Support						
Alimony						
Other income (please itemize)						

PART II. CURRENT LIVING EXPENSES

Please list personal living expenses which were typical during the last year and indicate if any of these values are likely to change significantly in the current year. Please do not include business expenses. If you are the owner of an operating business, please attach any available financial statements.

Expense	Amount	Period of Payment (check one)				For Agency Use ONLY

Tax Information Authorization

OMB No 1545-1165
For IRS Use Only
Received by: _____
Name _____
Telephone () _____
Function _____
Date / / _____

► IF THIS AUTHORIZATION IS NOT SIGNED AND DATED, IT WILL BE RETURNED.

1 Taxpayer information.

Taxpayer name(s) and address (please type or print)	Social security number(s) _____	Employer identification number _____
	Daytime telephone number () _____	Plan number (if applicable) _____

2 Appointee.

Name and address (please type or print)	CAF No. _____ Telephone No. () _____ Fax No. () _____ Check if new: Address <input type="checkbox"/> Telephone No. <input type="checkbox"/>
---	---

3 Tax matters. The appointee is authorized to inspect and/or receive confidential tax information in any office of the IRS for the tax matters listed on this line.

(a) Type of Tax (Income, Employment, Excise, etc.)	(b) Tax Form Number (1040, 941, 720, etc.)	(c) Year(s) or Period(s)	(d) Specific Tax Matters (see instr.)

4 Specific use not recorded on Centralized Authorization File (CAF). If the tax information authorization is for a specific use not recorded on CAF, check this box. (See the instructions on page 2.) ☐
If you checked this box, skip lines 5 and 6.

5 Disclosure of tax information (you must check the box on line 5a or b unless the box on line 4 is checked):
a If you want copies of tax information, notices, and other written communications sent to the appointee on an ongoing basis, check this box ☐
b If you do not want any copies of notices or communications sent to your appointee, check this box ☐

6 Retention/revocation of tax information authorizations. This tax information authorization automatically revokes all prior authorizations for the same tax matters you listed above on line 3 unless you checked the box on line 4. If you do not want to revoke a prior tax information authorization, you MUST attach a copy of any authorizations you want to remain in effect AND check this box ☐
To revoke this tax information authorization, see the instructions on page 2.

7 Signature of taxpayer(s). If a tax matter applies to a joint return, either husband or wife must sign. If signed by a corporate officer, partner, guardian, executor, receiver, administrator, trustee, or party other than the taxpayer, I certify that I have the authority to execute this form with respect to the tax matters/periods covered.

Signature _____	Date _____	Signature _____	Date _____
Print Name _____	Title (if applicable) _____	Print Name _____	Title (if applicable) _____

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of form. Form 8821 authorizes any individual, corporation, firm, organization, or partnership you designate to inspect and/or receive your confidential information in any office of the IRS for the type of tax and the years or periods you list on this form. You may file your own tax information authorization without using Form 8821, but it must include all the information that is requested on the form.

Form 8821 does not authorize your appointee to advocate your position with respect to the Federal tax laws; to execute waivers, consents, or closing agreements; or to otherwise represent you before the IRS. If you want to authorize an individual to represent you, use Form 2848, Power of Attorney and Declaration of Representative.

Use Form 56, Notice Concerning Fiduciary Relationship, to notify the IRS of the existence of a fiduciary relationship. A fiduciary (trustee, executor, administrator, receiver, or guardian) stands in the position of a taxpayer and acts as the taxpayer. Therefore, a fiduciary does not act as an appointee and should not file Form 8821. If a fiduciary wishes to authorize an appointee to inspect and/or receive confidential tax information on behalf of the fiduciary, Form 8821 must be filed and signed by the fiduciary acting in the position of the taxpayer.

Taxpayer identification numbers (TINs). TINs are used to identify taxpayer information with corresponding tax returns. It is important that you furnish correct names, social security numbers (SSNs), individual taxpayer identification numbers (ITINs), or employer identification numbers (EINs) so that the IRS can respond to your request.

Partnership items. Sections 6221-6231 authorize a Tax Matters Partner to perform certain acts on behalf of an affected partnership. Rules governing the use of Form 8821 do not replace any provisions of these sections.

When to file. Form 8821 must be received by the IRS within 60 days of the date it was signed and dated by the taxpayer.

Where to file. Generally, mail or fax Form 8821 directly to the Centralized Authorization File (CAF) Unit at the service center where the related return was, or will be, filed. To find the service center address, see the related tax return instructions. To get the fax number, call 1-800-829-1040.

If Form 8821 is for a specific tax matter, mail or fax it to the office handling that matter. For more information, see the instructions for line 4.

Specific Instructions

Line 1—Taxpayer information

Individuals. Enter your name, TIN, and your street address in the space provided. Do not enter your appointee's address or post office box. If a joint return is used, also enter your spouse's name and TIN. Also enter your EIN if applicable.

Corporations, partnerships, or associations. Enter the name, EIN, and business address.

Employee plan. Enter the plan name, EIN of the plan sponsor, three-digit plan number, and business address of the plan sponsor.

Trust. Enter the name, title, and address of the trustee, and the name and EIN of the trust.

Estate. Enter the name, title, and address of the decedent's executor/personal representative, and the name and identification number of the estate. The identification number for an estate includes both the EIN, if the estate has one, and the decedent's TIN.

Line 2—Appointee. Enter your appointee's full name. Use the identical full name on all submissions and correspondence. If you wish to name more than one appointee, indicate so on this line and attach a list to the form.

Note: Only the first three appointees you list will be input on the CAF.

Enter the nine-digit CAF number for each appointee. If an appointee has a CAF number for any previously filed Form 8821 or power of attorney (Form 2848), use that number. If a CAF number has not been assigned, enter "NONE," and the IRS will issue one directly to your appointee.

The CAF number is a number that the IRS assigns to appointees. The appointee's CAF number must be used on all future Forms 8821 or 2848. The IRS does not assign CAF numbers to requests for employee plans and exempt organizations.

Line 3—Tax matters. Enter the type of tax, the tax form number, the years or periods, and the specific tax matter. Enter "Not applicable," in any of the columns that do not apply.

In column (c), write the years using the YYYY format, for example, "2000." Do not use general references such as "all years," or "all periods." If you do, your application will be returned.

You may list any prior years or periods, but for future periods, you are limited to the 3 future periods that end no later than 3 years after the date Form 8821 is received by the IRS. For employment tax or excise tax returns, enter the applicable quarters of the tax year. For estate tax returns, enter the date of the decedent's death instead of the year or period.

In column (d), enter any specific information you want the IRS to provide. Examples of column (d) information are: transcript of an account, a balance due amount, a specific tax schedule, or a tax liability.

For requests regarding a foreign certification shown on Form 6166, Certification of Filing A Tax Return, enter "Form 6166" in column (d) and check the box on line 4.

Line 4—Specific use not recorded on CAF. Generally, the IRS records all tax information authorizations on the CAF system. However, authorizations relating to a specific issue are not recorded.

Check the box on line 4 if Form 8821 is filed for any of the following reasons: (1) requests to disclose information to loan companies or educational institutions, (2) requests to disclose information to Federal or state agency investigators for background checks, (3) civil penalty issues, (4) trust fund recovery penalty,

(5) application for EIN, or (6) claims filed on Form 843, Claim for Refund and Request for Abatement. If you check the box on line 4, your appointee should mail or fax Form 8821 to the IRS office handling the matter. Otherwise, your appointee should bring a copy of Form 8821 to each appointment to inspect or receive information. A specific use tax information authorization does not automatically revoke any prior tax information authorizations.

Line 6—Retention/revocation of tax information authorizations. Check the box on this line and attach a copy of the tax information authorization you do not want to revoke.

To revoke an existing authorization, send a copy of the previously executed Form 8821 to the IRS office where it was filed. Write "REVOKE" across the top of the form and sign your name again under the existing signature (line 7). If you do not have a copy of the prior Form 8821, send a letter to the IRS office where you filed it. The letter must indicate that the authority of the tax information authorization is revoked and must be signed by the taxpayer. Include the name and address of each appointee whose authority is revoked.

Note: Filing Form 8821 does not revoke any Form 2848 that is in effect.

Line 7—Signature of taxpayer(s)

Individuals. You must sign and date the authorization. Either husband or wife must sign if Form 8821 applies to a joint return.

Corporations. Generally, Form 8821 can be signed by: (1) an officer having legal authority to bind the corporation, (2) any person designated by the board of directors or other governing body, (3) any officer or employee on written request by any principal officer and attested to by the secretary or other officer, and (4) any other person authorized to access information under section 6103(e).

Partnerships. Generally, Form 8821 can be signed by any person who was a member of the partnership during any part of the tax period covered by Form 8821. See Partnership items above.

All others. See section 6103(e) if the taxpayer has died, is insolvent, is a dissolved corporation, or if a trustee, guardian, executor, receiver, or administrator is acting for the taxpayer.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. Form 8821 is provided by the IRS for your convenience and its use is voluntary. If you designate an appointee to inspect and/or receive confidential tax information, you are required by section 6103(c) to provide the information requested on the form. Under section 6109, you must disclose your social security number (SSN), employer identification number (EIN), or individual taxpayer identification number (ITIN). If you do not provide all the information requested on this form, we may not be able to honor the authorization.

Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation, and to cities, states, and the District of Columbia for use in administering their tax laws. We may also give this information to other countries pursuant to tax treaties.

You are not required to provide the information requested on a form unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Disclosure of the information on this form may be made as provided in section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is: Recordkeeping, 7 min.; Learning about the law or the form, 12 min.; Preparing the form, 24 min.; Copying, assembling, and sending the form to the IRS, 20 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. You can write to the Tax Forms Committee, Western Area Distribution Center, Rancho Cordova, CA 95743-0001. DO NOT send Form 8821 to this address. Instead, see Where to file on this page.

Instructions & Application for Parties Seeking Volume Review

De minimis parties who believe their assessed volume is in error may request a review of their volume assessment by submitting the appropriate supporting documentation and completed Application for Volume Review form along with their signature page for the settlement. The executed signature page, completed application form, and all required supporting documentation must be submitted in time to be received by the U.S. EPA at the address noted below and postmarked no later than the deadline specified in the Notice & Offer Letter for the expedited settlement. If, after conducting the review, the U.S. EPA determines that your company or organization's original volume assessment was incorrect, it will inform your company or organization of the revised volume and the adjustment made by the Agency to your company or organization's settlement payment including the 5% discount for the expedited settlement. If the U.S. EPA determines that your company or organization's original volume assessment was correct, your company or organization will have the opportunity to participate in a *de minimis* settlement by making the full settlement payment. In either event, your company or organization can withdraw its signature page within two weeks after it receives notification of the U.S. EPA's volume review decision.

Please read the Omega Site De Minimis Settlement Information memorandum, the Manifest and Volume Database Information memorandum, and all the instructions before completing this application. **Incomplete applications will not be accepted for review. The U.S. EPA requires that all supporting documentation be submitted with this application even if previously submitted. The U.S. EPA will not conduct a volume review unless this completed application is submitted.** Please note that it will take the U.S. EPA some time to review your application, and that the U.S. EPA may request additional information to complete the review.

To challenge the volume assigned to a manifest or your company or organization's legal responsibility for the wastes, your company or organization must provide clear and convincing evidence satisfactory to the U.S. EPA that a different volume is correct for that manifest or that your company or organization is not the correct legal entity associated with the manifest(s). Participation in the volume review process does not require any admission of liability by your company or organization.

Linda Ketellapper, Case Developer
Mail Code SFD-7-B
U.S. Environmental Protection Agency
75 Hawthorne St.
San Francisco, CA 94105

INSTRUCTIONS

1. Complete all the information required on the first page of the form, providing the name of your company or organization and the requested contact information. The contact name for purposes of this volume review process need not be the same person your company or organization designated as its Primary Contact for other purposes.
2. To help us complete our review more quickly, please check the box adjacent to the description of every category of error type that fits any of your company or organization's manifests.
3. Using the Manifest Review List, list chronologically the manifests you would like the U.S. EPA to review. For each manifest, enter the Manifest Date and the code(s) for the applicable error type(s). Please also supply a description of the problem(s) affecting the manifest. If you would like the U.S. EPA to review more manifests than you can list on the enclosed Manifest Review List form, please make additional copies of the form. We cannot adequately review manifests that are not appropriately identified on the Manifest Review List.
4. Attach copies of the manifests in chronological order (using the same order you listed them in on the Manifest Review List).
5. Complete the certification attesting to the veracity of the representations you have made in the application, under threat of penalty for having made false statements to the U.S. Government.
6. Submit the completed Application for Volume Review, along with the executed settlement signature page.
7. **Business Confidentiality Claims.** You may assert a business confidentiality claim covering all or part of the information requested herein, as provided in 40 Code of Federal Regulations ("C.F.R.") Section 2.203(b). To make a confidentiality claim, please follow the instructions provided in Attachment A to this document.

Application Form for Volume Review

If your company or organization wishes to request a volume review, it must complete this form in accordance with the instructions and submit it, accompanied by your company or organization's executed settlement signature page.

Company Name:

Contact Name:

Contact Title:

Street Address:

City, State & Zip:

Telephone Number:

Fax Number:

E-Mail Address:

Error Types. Please check every error type that is applicable to any manifest you would like the U.S. EPA to review. Please list each manifest you submit for review on the Manifest Review List, using the letter code(s) adjacent to the applicable error type description in the column on the Manifest Review List labeled "Error Type(s)."

☐ **A** Data Input Error. The total calculated quantity on one or more manifest(s) do(es) not match the data on the Manifest Summary. Please describe the problem for each affected manifest, enter the letter code "A" in the Error Type(s) column, and attach a copy of each manifest.

☐ **B** Generator Identification Error. One or more manifest(s) was or were attributed to the wrong generator (i.e., it does not belong to your company or organization). Please describe the problem for each affected manifest, enter the letter code "B" in the Error Type(s) column, and attach a copy of each manifest.

☐ **C** Other Error. The volume assigned to one or more manifest(s) is in error for a reason not covered in one of the above categories. Please describe the problem for each affected manifest, enter the letter code "C" in the Error Type(s) column, attach supporting documentation, and attach a copy of each manifest.

Manifest Review List

Manifest Date	Manifest #	Error Type(s)*	Error Description

Attach additional copies of this form as necessary to list more manifests. If more room is need for descriptions, use 8 1/2 x 11 paper.

* List letter code(s) for applicable error type(s), as provided in application.

CERTIFICATION

I hereby certify, under threat of penalty for having made false statements to the United States Government, that the foregoing representations in this Application for Volume Review are true and correct to the best of my information and belief.

Dated: _____, 2005

Business Confidentiality Claims

Confidential Information. The information requested herein must be provided even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to Sections 104(e)(7)(E) and (F) of CERCLA, 42 U.S.C. §§9604(e)(7)(E) and (F), and Section 3007(b) of RCRA, 42 U.S.C. §6927(b), and 40 C.F.R. §2.203(b). If you make a claim of confidentiality for any of the information you submit to EPA, you must prove that claim. For each document or response you claim confidential, you must separately address the following points:

1. clearly identify the portions of the information alleged to be entitled to confidential treatment;
2. the period of time for which confidential treatment is desired (e.g., until a certain date, until the occurrence of a specific event, or permanently);
3. measures taken by you to guard against the undesired disclosure of the information to others;
4. the extent to which the information has been disclosed to others, and the precautions taken in connection therewith;
5. pertinent confidentiality determinations, if any, by EPA or other federal agencies, and a copy of any such determinations or reference to them, if available; and
6. whether you assert that disclosure of the information would likely result in substantial harmful effects on your business' competitive position, and, if so, what those harmful effects would be, why they should be viewed as substantial, and an explanation of the causal relationship between disclosure and such harmful effects.

To make a confidentiality claim, please stamp or type "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise nonconfidential documents should be clearly identified. You should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit your response so that all nonconfidential information including any redacted versions of documents are in one envelope, and all materials for which you desire confidential treatment are in another envelope.

All confidentiality claims are subject to EPA verification. It is important that you satisfactorily show that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, and that it is not and has not been obtainable by legitimate means without your consent. Information covered by such claim will be disclosed by EPA only to the extent permitted by CERCLA Section 104(e). If no such claim accompanies the information when it is received by EPA, then it may be made available to the public by EPA without further notice to you.

Disclosure to EPA's Authorized Representatives. Information which you submit in response to this information request may be disclosed by EPA to authorized representatives of the United States, pursuant to 40.C.F.R. 2.310(h), even if you assert that all or part of it is confidential business information. The authorized representatives of EPA to which EPA may disclose information contained in your response are as follows:

1. Arctic Slope Regional Corp.
EPA Contract Number 68-R9-0101
2. Department of Toxic Substances Control/California
Environmental Protection Agency
3. Science Applications International Corporation
EPA Contract Number GS-10F-0076J

Any subsequent additions or changes in EPA contractors who may have access to your response to this request will be published in the Federal Register.

This information may be made available to these authorized representatives of EPA for any of the following reasons: to assist with document handling, inventory, and indexing; or to assist with document review and analysis for verification of completeness; or to provide expert technical review of the contents of the response. Pursuant to 40 C.F.R. §2.310(h), you may submit comments on EPA's disclosure of any confidential information contained in your response by EPA to its authorized representatives along with the response itself, within the specified period in which the response is due.

Application for Parties who Disposed of More Toxic Contaminants

If your company or organization sent hazardous substances to the Omega Site more toxic than those listed on Attachment A to this Application, it should use this application. The U.S. EPA will determine, after reviewing this application, if your company or organization still qualifies as a de minimis party.

Company Name:

Contact Name:

Contact Title:

Street Address:

City, State & Zip:

Telephone Number:

Fax Number:

E-Mail Address:

Please list, in the space below, **only** the hazardous substances your company or organization disposed of at the Omega Site that are more toxic than those listed in Attachment A to this Application. Please use CAS (Chemical Abstracts Service) number, if available, in addition to the chemical name.

Omega Chemical Superfund Site

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY • REGION 9 • SEPTEMBER 2003

OMEGA CHEMICAL SUPERFUND SITE UPDATE

The United States Environmental Protection Agency (EPA) and a group of potentially responsible parties (PRPs) have been conducting an investigation of the groundwater and soil contamination at the Omega Chemical Superfund site in Whittier, CA (see Figure 1, page 2). This fact sheet discusses what has been completed to date on the site investigation.

EPA is studying the nature and extent of the groundwater contamination near the site. EPA is also overseeing the PRPs as they investigate the extent and nature of soil and groundwater contamination on the Omega property. As a result of past activities at the site, soil and groundwater are contaminated with various volatile organic compounds (VOCs). VOCs are organic compounds that easily evaporate at room temperature. The most prevalent VOCs at the Omega site are perchloroethylene (PCE), trichloroethylene (TCE), Freon 11 and Freon 113. These solvents were previously used as degreasers, dry-cleaning chemicals and refrigerant agents. The nearest drinking water well to the site is approximately 1.3 miles downgradient from the site (Figure 1) in Santa Fe Springs, CA. All drinking water served by the City of Santa Fe Springs and the City of Whittier, including water from this well, meets State and Federal drinking water standards. The maximum contamination level (MCL) allowed in drinking water for PCE and TCE is five parts per billion (ppb), for Freon 11 its 150 ppb and Freon 113 its 1200 ppb. A MCL is the maximum permissible level of a contaminant in water delivered to a public drinking system.

As part of the site investigation, EPA is developing a monitoring program to track the movement of contaminated groundwater from the site. The program will help EPA monitor the flow of the contamination under ground so it does not threaten drinking water sources, and will determine if other sources are contributing to the contamination. Information from the monitoring program is used to determine what type of groundwater cleanup system will be needed.

WHAT HAS HAPPENED, SO FAR?

Site History

The Omega Chemical Superfund site is located at 12504 and 12512 East Whittier Blvd., in the City of Whittier, Los Angeles County, California. The site is approximately

40,000 square feet in area. There are two buildings, a warehouse and an office building. The rest of the site is a paved service yard. From 1976 to 1991, the Omega Chemical Corporation and Refrigerant Reclamation Company operated a used solvent and refrigerant recycling and reformulation treatment facility. The facility primarily handled chemicals used in refrigerator and freezer coils and chlorinated solvents that included degreasing chemicals and dry-cleaning chemicals.

In the late 1980s, the Los Angeles County Department of Health Services, Public Works Department and the Fire Department investigated the Omega facility. Contamination was found in shallow soil at depths less than 3.5 feet below ground surface and at concentrations up to 1,000 ppm. This site was referred to the EPA's Emergency Response Section in 1995. Also in 1995, the EPA issued a Unilateral Administrative Order to over 170 PRPs to remove contaminants that posed an immediate or substantial threat to public health and environment. This included the removal of more than 2,700 drums from the site. In 2001, a settlement known as a partial Consent Decree was signed with over 100 PRPs to conduct a soil remedial investigation and feasibility study (RI/FS) at the Omega property; install three (3) downgradient monitoring wells to be sampled quarterly; and to design and implement a groundwater containment and mass removal system near the Omega facility. A RI/FS allows EPA to study the nature and extent of the contamination at a site, and helps to decide what are the best and most cost effective cleanup methods that can be considered. Work required under this partial Consent Decree is ongoing.

EPA Activities:

From August to November 2001, EPA drilled eighty borings and took a water sample at each location. The data results helped EPA to understand the extent of groundwater contamination better and helped to determine where

Cont'd. on page 2

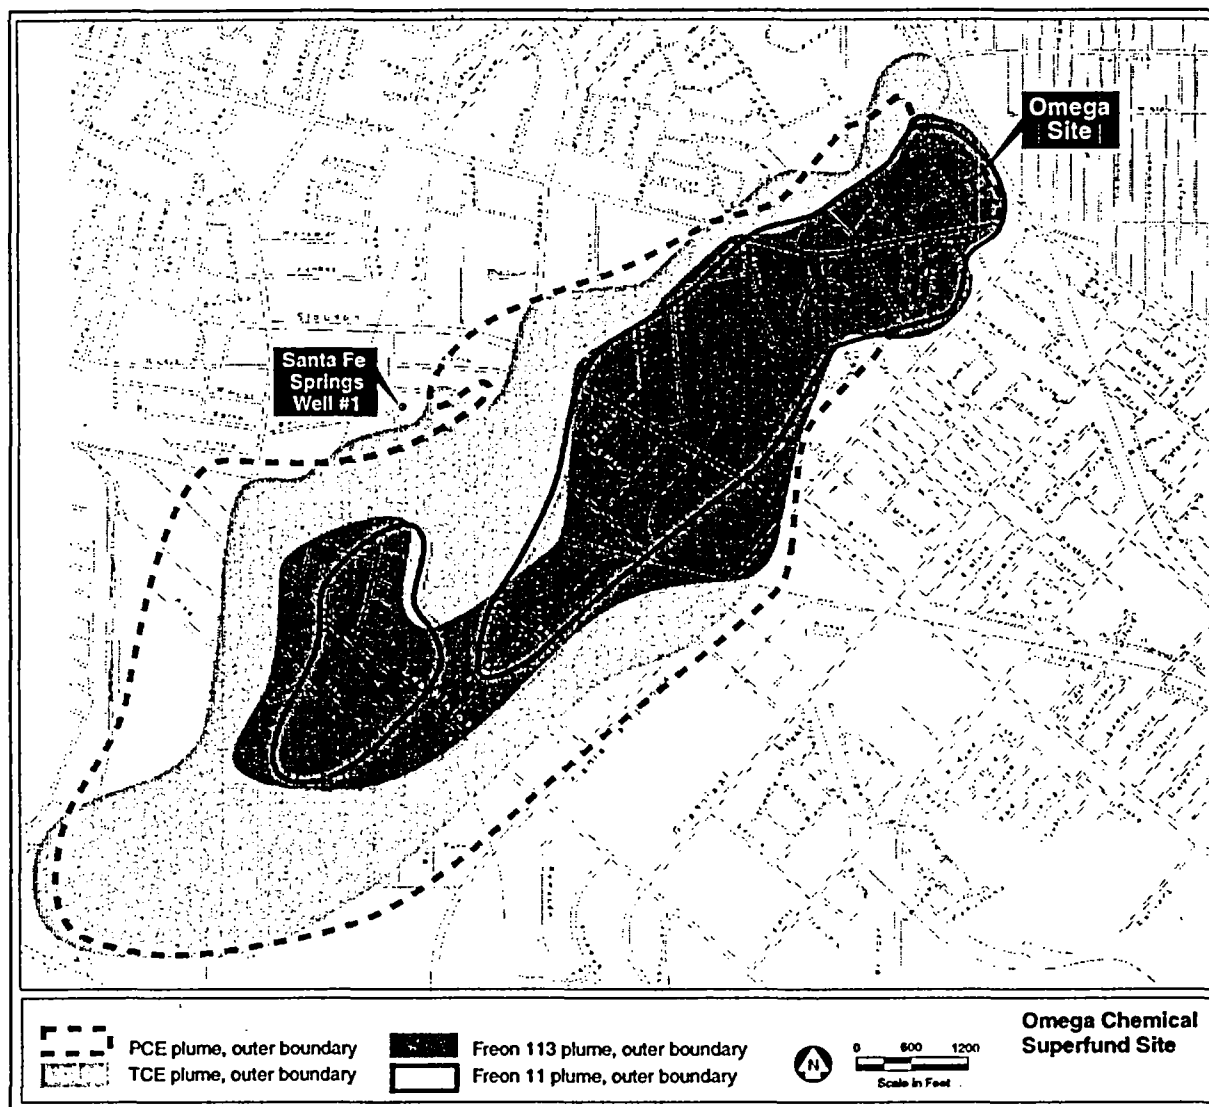

Figure 1: Omega Chemical Superfund site, showing outer boundaries of contaminants

additional monitoring wells needed to be placed. A monitoring well is used to collect periodic groundwater samples. The map (above) shows an outline of the site's groundwater contamination area, referred to as a plume. The plume's border shows where we did not detect VOCs above 5ppb. Based on the boring sampling data, EPA installed eighteen groundwater monitoring wells in December 2001. The monitoring wells are currently sampled quarterly and results are typically available within a four-month period. In August 2001, EPA conducted a second phase of exploratory sampling to more fully evaluate the extent of the contaminated groundwater. An additional thirty-five locations were sampled.

PRP Activities:

Four rounds of quarterly sampling have been conducted on the first seven of the ten PRP monitoring wells installed. The two most recently installed wells were sampled for the

first time in late March 2002 and are now sampled semi-annually along with other PRP wells. The PRPs conducted pump tests of the four nearest downgradient wells in March 2003. The PRPs have also prepared a draft workplan for Remedial Investigation (RI) of soils on the Omega site. The workplan explains how they will go about conducting the study.

Based on data collected at all of the groundwater wells, EPA has identified the general location of the groundwater contamination downgradient from the Omega Chemical facility. These data will be used in the future for the site-wide remedial investigation and feasibility study in order that the EPA may select a final cleanup remedy (or plan) for the site.

TECHNICAL ASSISTANCE PROGRAM

A Technical Assistance Grant (TAG) is available for citizens who live near a Superfund site. The grant helps qualified citizen groups affected by a Superfund site to hire an independent technical advisor to help interpret and comment on site-related information. An initial grant of up to \$50,000 is available. For further information about the grant, please call us and request an application (toll-free 800-231-3075) or get it from the TAG web page: www.epa.gov

SITE INFORMATION REPOSITORY

The EPA maintains site information repositories at the Whittier Public Library and at the EPA Superfund Records Center. These repositories contain project documents, fact sheets, and reference materials. The EPA encourages you to review these documents to gain a complete understanding of the site. The information repository's locations are listed below. EPA also has a site information web page at <http://Yosemite.epa.gov/r9/sfund/overview.nsf>, scroll to the Omega Chemical site.

PROGRAMA DE ASISTENCIA TECNICA

Un Programa de Asistencia Técnica (TAG, por sus siglas en inglés) está disponible para ciudadanos que vivan cerca del Sitio Superfondo. El programa ayuda a grupos de ciudadanos afectados por un Sitio de Superfondo para que contraten los servicios de un consejero tecnico independiente para que les ayude a interpretar y comentar sobre información relacionada con el sitio. Un programa financiero inicial de hasta \$50,000 está disponible. Para más información sobre este programa, por favor llámenos y pida una solicitud (numero gratis 800-231-3075) ó la puede obtener del sitio de internet TAG: www.epa.gov.

DEPOSITO DE INFORMACIÓN DEL SITIO

La EPA mantiene depositos de información sobre el sitio en la Biblioteca Pública de Whittier y en el Centro de Registro de Superfondo de la EPA. Estos depósitos contienen documentos sobre el proyecto, boletines, y materiales de referencia. La EPA le aconseja que revise estos documentos para que obtenga un mayor conocimiento del sitio. La EPA también cuenta con una pagina de internet con información del sitio en la siguiente dirección: <http://Yosemite.epa.gov/r9/sfund/overview.nsf>, desplazarse hacia abajo al Sitio Omega Chemical.

El Sitio Superfondo Omega Chemical

LA AGENCIA PARA LA PROTECCIÓN DEL MEDIO AMBIENTE DE LOS ESTADOS UNIDOS • REGIÓN 9 • SEPTIEMBRE DE 2003

PROGRESO EN EL SITIO SUPERFONDO OMEGA CHEMICAL

La Agencia De Protección Ambiental De Los Estados Unidos (EPA por sus siglas en inglés) junto con las compañías potencialmente responsables (PRPs por sus siglas en inglés) han estado conduciendo una investigación sobre la contaminación del agua subterránea y el suelo en el Sitio Superfondo Omega Chemicals en Whittier, CA (vease Figura 1). Este boletín trata de lo que se ha logrado hasta la fecha con respecto a la investigación en el sitio.

La EPA está estudiando la naturaleza y el alcance de contaminación del agua subterránea cerca del sitio. La EPA también está supervisando a las compañías potencialmente responsables durante la investigación sobre naturaleza y el alcance de contaminación en la propiedad de Omega. Como resultado de actividades llevadas a cabo en el pasado dentro del Sitio, el suelo y el agua subterránea están contaminados con varios compuestos orgánicos volátiles (VOCs, por sus siglas en inglés). Los compuestos orgánicos volátiles se caracterizan por evaporarse fácilmente en temperaturas normales. Los compuestos orgánicos más comunes en el sitio Omega son percloroeteno (*perchloroethylene-PCE*), tricloroeteno (*trichloroethylene-TCE*), freón (*Freon*) 11, y freón (*Freon*) 113. Estos solventes eran utilizados para disminuir la grasa, como químicos para limpiar en seco y también como agentes refrigerantes. El pozo de agua potable más cercano al lugar está ubicado aproximadamente a 1.3 millas cuesta abajo del sitio (Figura 1) en Santa Fe Springs, CA. El nivel máximo de contaminación (MCL, por sus siglas en inglés) de PCE y TCE permitido en el agua potable es de cinco partes por billón (ppb por sus siglas en inglés), de Freon 11 es de 150 ppb y de Freon 113 es 1200 ppb. Un MCL es el nivel máximo de contaminación permitido en el agua destinada a un sistema público de agua potable. El agua potable para la Ciudad de Santa Fe Springs y la Ciudad de Whittier cumple con las normas estatales y federales con respecto al agua potable.

Como parte de la investigación, la EPA está desarrollando un programa de monitoreo para rastrear el movimiento del flujo de agua contaminada del sitio. Este programa ayudará a la EPA a monitorear el flujo de contaminación subterránea para no poner en riesgo las fuentes de agua potable, y así ayudar a determinar si algunas otras fuentes están contribuyendo a la contaminación. El programa ayuda a determinar que tipo de sistema de limpieza se necesitará para el agua subterránea.

¿QUE HA SUCEDIDO, HASTA AHORA?

Historia del Sitio

El sitio superfondo Omega Chemical está localizado en el 12504 y 12512 East Whittier Blvd., en la Ciudad de Whittier, Condado de Los Angeles, California. La área del sitio es de aproximadamente 40,000 pies cuadrados. Hay dos edificios, una bodega y sus oficinas. El resto del sitio consiste en un patio de servicio pavimentado. De 1976 a 1991, Omega Chemical Corporation y Refrigerant Reclamation Company operaron una instalación de reciclaje, tratamiento y reformulación de solventes usados. La instalación manejaba principalmente químicos usados en las bobinas de los refrigeradores y congeladores, así como solventes clorinados que incluían químicos para disminuir la grasa al igual que químicos utilizados para la limpieza en seco.

A finales de la década de los 80s, el Departamento de Servicios de Salud del Condado de Los Angeles, el Departamento de Obras Públicas, y el Departamento de Bomberos investigaron la instalación Omega. Se encontró que a una profundidad menos de 3.5 pies debajo de la superficie, el suelo contenía contaminaciones en concentraciones de hasta 1,000 partes por millón (ppm por sus siglas en inglés). En 1995, la EPA emitió una Orden Unilateral Administrativa a más de 170 compañías potencialmente responsables para que removieran los contaminantes que ponían en riesgo la salud pública y ambiental. Esto incluyó remover más de 2,700 barriles del sitio. En el 2001 se firmó un Decreto de Consentimiento con más de 100 compañías potencialmente responsable para conducir una investigación de remediación y un estudio de viabilidad en la propiedad de Omega; instalar 3 pozos de monitoreo cuesta abajo de los cuales se tomarían muestras trimestralmente; y diseñar e implementar un sistema de contención para el agua subterránea cuesta abajo y un sistema masivo de removimiento que estaría localizado cerca a las instalaciones de Omega.

Actividades de la EPA

De Agosto a Noviembre del 2001, la EPA excavó 80 pozos y tomó muestras de agua de cada locación. Los resultados de la información obtenida ayudaron a la EPA a entender la extensión de contaminación del agua subterránea mejor y ayudo a determinar donde serian puestos los pozos de monitoreo. Un pozo de monitoreo es utilizado para recolectar muestras de agua subterránea periodicamente. El mapa (a la derecha) muestra el contorno del flujo de la contaminación en el agua subterránea del sitio (el flujo o plume en inglés se refiere a la forma que toma una substancia al infiltrarse o repartirse en un terreno). El contorno

del flujo indica hasta donde no se detectaron compuestos organicos volátiles por arriba de los 5 ppb. Basándose en la información proveniente de las muestras tomadas de los pozos, la EPA instaló 18 pozos de monitoreo en Diciembre del 2001. Actualmente se toman nuestras de los pozos de monitoreo cada cuatro meses, y los resultados están disponibles en un periodo de cuatro meses. En agosoto del 2001 la EPA condujo una segunda fase de muestras de exploración para mejor evaluar el alcance de contaminación en el agua subterránea. Se tomaron muestras de treinta cinco locaciones adicionales.

Actividades de las compañías potencialmente responsables (PRPs por sus siglas en inglés)

Cuatro rondas de muestras han sido conducidas cada cuatro meses en los primeros siete de los 10 pozos de monitoreo instalados por las compañías potencialmente

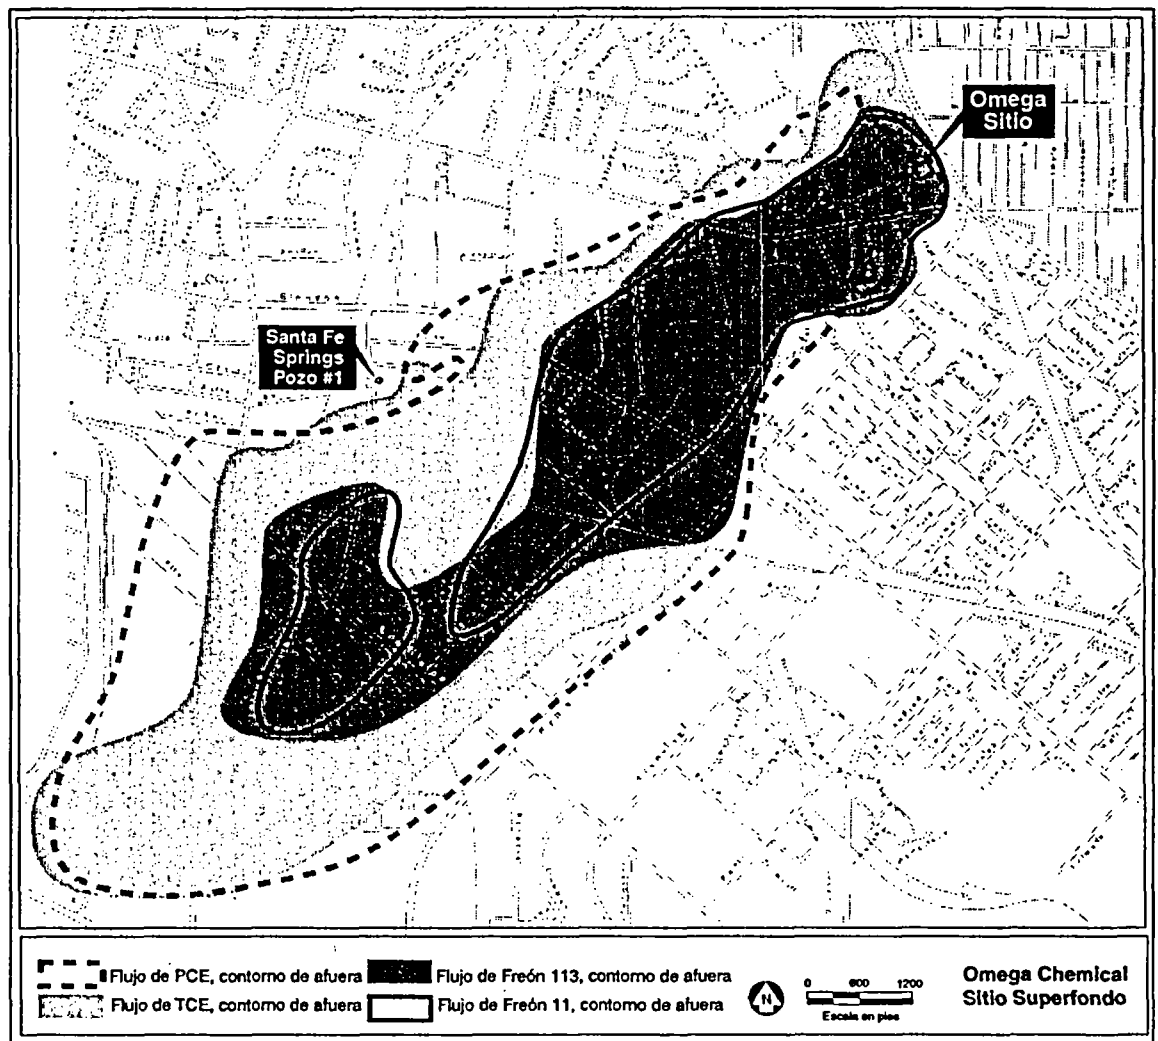

Figura 1: Sitio Superfondo Omega Chemical, mostrando los contornos de alvea de los contaminantes

responsables. Los dos pozos que fueron instalados recientemente, fueron analizados por primera vez a finales de Marzo del 2002. Las compañías potencialmente reponsables condujeron pruebas de bombeo el los cuatro pozos más cercanos cuesta abajo en Marzo del 2003. Las compañías potencialmente reponsables también prepararon un borrador del Plan de Trabajo para la Investigación Remediadora (RI por sus siglas en inglés) del suelo en el Sitio Omega. El plan de Trabajo explica como conduciran el estudio. Basandose en la información colectada en todos los pozos de agua subterránea, la EPA ha indentificado una locación general de agua subterránea contaminada cuesta abajo del las instalaciones de Omega Chemical. Esta información será utilizada en el futuro para la Investigación Remediadora y Estudio de Viabilidad en todo el sitio para que la EPA pueda seleccionar una limpieza final para el sitio.

Office of Enforcement and Compliance Assurance **INFORMATION SHEET**

U.S. EPA Small Business Resources

If you own a small business, the United States Environmental Protection Agency (EPA) offers a variety of compliance assistance and tools to assist you in complying with federal and State environmental laws. These resources can help you understand your environmental obligations, improve compliance and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

EPA Websites

EPA has several Internet sites that provide useful compliance assistance information and materials for small businesses. Many public libraries provide access to the Internet at minimal or no cost.

EPA's Small Business Home Page (<http://www.epa.gov/sbo>) is a good place to start because it links with many other related websites. Other useful websites include:

EPA's Home Page
<http://www.epa.gov>

Small Business Assistance Programs
<http://www.epa.gov/ttn/sbap>

Compliance Assistance Home Page
<http://www.epa.gov/oeca/oc>

Office of Site Remediation Enforcement
<http://www.epa.gov/oeca/osre>

Hotlines, Helplines and Clearinghouses

EPA sponsors approximately 89 free hotlines and clearinghouses that provide convenient assistance on environmental requirements.

EPA's Small Business Ombudsman Hotline can provide a list of all the hot lines and assist in determining the hotline best meeting your needs. Key hotlines include:

EPA's Small Business Ombudsman

Continued on back

Compliance Assistance Centers

In partnership with industry, universities, and other federal and state agencies, EPA has established national Compliance Assistance Centers that provide Internet and "faxback" assistance services for several industries with many small businesses. The following Compliance Assistance Centers can be accessed by calling the phone numbers below and at their respective websites:

Metal Finishing

(1-800-AT-NMFRC or www.nmfrc.org)

Printing

(1-888-USPNEAC or www.pneac.org)

Automotive Service and Repair

(1-888-GRN-LINK or www.ccar-greenlink.org)

Agriculture

(1-888-663-2155 or www.epa.gov/oeca/ag)

Printed Wiring Board Manufacturing

(1-734-995-4911 or www.pwbrc.org)

The Chemical Industry

(1-800-672-6048 or www.chemalliance.org)

The Transportation Industry

(1-888-459-0656 or www.transource.org)

The Paints and Coatings Center

(1-800-286-6372 or www.paintcenter.org)

State Agencies

Many state agencies have established compliance assistance programs that provide on-site and other types of assistance. Contact your local state environmental agency for more information. For assistance in reaching state agencies, call EPA's Small Business Ombudsman at (800)-368-5888 or visit the Small Business Environmental Homepage at <http://www.smallbiz-enviroweb.org/state.html>.

Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations, businesses may be eligible for penalty waivers or reductions. EPA has two policies that potentially apply to small businesses: The Audit Policy (<http://www.epa.gov/oeca/auditpol.html>) and the Small Business Policy (<http://www.epa.gov/oeca/>

[smbusi.html](http://www.epa.gov/oeca/smbusi.html)). These do not apply if an enforcement action has already been initiated.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an ombudsman ("SBREFA Ombudsman") and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. The SBREFA Ombudsman will annually rate each agency's responsiveness to small businesses. If you believe that you fall within the Small Business Administration's definition of a small business (based on your Standard Industrial Code (SIC) designation, number of employees or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act (SBREFA) or related provisions.
